

Welcome

Since opening in Gloucester in May 2010, we have quickly become one of the fastest growing direct sales and marketing companies in the South West of England. The clientele that we represent are all market leaders in the charities sector and for whom we provide a uniquely hands on, cost effective service.

Enza Marketing is a sales and results focussed business – through success of our individual representatives we are able to get a great return of investment for our clients. Each and every representative and member of staff at Enza Marketing LTD work together on a daily basis to share ideas and knowledge to create the best practice possible for both the clients we work with and also the customers.

Since opening the business in Gloucester, the founder of Enza Marketing LTD, Mr Joe Arkley, has watched this business grow from strength to strength, and this success is largely down to the professionalism, persistency and dedication that the Enza Marketing team implement every day.

Enza Marketing LTD is contracted to [The APPCO Group](#) who have a strong presence across the world, with 800 offices spanning across over 20 countries.
